A satellite constellation is a group of artificial satellites working in concert. Such a constellation can be considered to be a number of satellites with coordinated ground coverage, operating together under shared control, synchronized so that they overlap well in coverage, the period in which a satellite or other spacecraft is visible above ...

To study the consequences of elevated MG levels in vivo, we generated Glo1 loss-of-function flies, lacking the translation start site and much of the open reading frame (Figure 1A), leading to flies with no Glo1 protein (Figure 1B) and no detectable Glo1 activity above background (Figure 1C).
